PROFESSIONAL SUMMARY

Web Designer and Frontend Developer with 4+ years of experience creating responsive, accessible, and user-friendly websites for international clients. Skilled in WordPress customization, HTML5, CSS3, JavaScript, and translating Figma designs into production-ready web experiences. Experienced in WCAG accessibility compliance, cross-browser compatibility, UI/UX implementation, and website performance optimization. Proven ability to manage projects independently, collaborate with cross-functional teams, and deliver high-quality websites within project timelines.

WORK EXPERIENCE

WordPress Developer | vSplash Techlabs Pvt. Ltd. *May 2025 – Present*

- Developed and maintained responsive WordPress websites using HTML5, CSS3, and JavaScript, translating Figma designs into production-ready web experiences.
- Customized WordPress themes, page layouts, and CMS workflows using Beaver Builder and custom frontend code.
- Implemented custom plugin integrations and backend settings pages to support client-specific website requirements.
- Ensured responsive design, cross-browser compatibility, accessibility, and consistent visual presentation across devices.
- Managed end-to-end website delivery, from design handoff and requirements analysis to development, testing, and launch.

Frontend Developer | Marmeto *Feb 2024 – Apr 2024*

- Developed and maintained two Shopify e-commerce websites using Liquid for custom theme development.
- Implemented custom JavaScript for interactive product displays, improving on-page engagement and UX.
- Diagnosed and resolved site performance and navigation issues across the storefront.

Trainee Web Developer | Thomson Reuters *Feb 2022 – Dec 2023*

- Led WCAG 2.0 accessibility compliance initiatives across 120+ websites, conducting 50+ accessibility audits and contributing to a 70% improvement in accessibility scores.
- Developed interactive UI components using HTML, CSS, and JavaScript, ensuring cross-browser compatibility across 10+ devices.
- Identified and resolved accessibility and usability issues to improve website usability and compliance with web standards.

PROJECTS

Revisible – Website Development

- Developed and maintained a responsive WordPress website for Revisible, a digital marketing platform helping businesses improve online visibility and generate leads.
- Implemented custom HTML, CSS, and JavaScript, integrating multiple JavaScript libraries to enhance UI interactions, animations, navigation, and user experience.
- Translated design requirements into responsive, cross-browser-compatible interfaces, supporting usability, accessibility, and website performance.

Makan Care (Independent/Freelance) *Jan – Mar 2025*

- Built core modules of a home-maintenance platform for the Saudi Arabian market, including location-based search, a booking flow, real-time tracking, and a digital guarantee system.

- Worked across the frontend product logic end-to-end, translating business requirements into working features without a pre-existing design system.

Panorama Inc. & Pranati Kejriwal (Freelance, WordPress/SEO) *2024*

- Delivered a WooCommerce website from Figma designs, improving organic traffic by 20% and page load speed by 30% through SEO and image optimization.
- Integrated **Zoho CRM with WordPress** to streamline lead capture and data flow between website forms and the CRM, supporting efficient lead management.
- Configured form-to-CRM workflows and supported lead data validation, troubleshooting integration issues to maintain reliable data synchronization.
- Developed responsive, cross-browser-compatible frontend components using HTML, CSS, and JavaScript, optimizing website usability, performance, and SEO.

CubeHQ.AI (Freelance, Squarespace) **Little Miami Brewing Company** *Oct – Nov 2024*

- Developed and maintained a responsive WordPress website for a US-based craft brewery, showcasing its craft beers, food menu, taproom, and event spaces.
- Implemented custom HTML, CSS, and JavaScript to create interactive UI components, enhance navigation, and deliver a seamless user experience across devices.
- Integrated website features supporting online food ordering, event inquiries, and customer engagement while optimizing usability, accessibility, and cross-browser compatibility.

WorldyReads – Personal Blog & Website Development

- Designed, developed, and managed a personal history-focused blog using WordPress, Elementor Pro, and custom CSS.
- Independently research, write, edit, and plagiarism-check original articles covering world history, historical events, civilizations, and geopolitics.
- Implement responsive page layouts, custom styling, SEO optimization, and content organization to improve readability, accessibility, and user experience across devices.
